What is CEUCA?

The **Student Council of the University of Cadiz** (CEUCA) is the highest body of student representation at UCA.

It brings together student voices from all campuses, faculties, and centers, acting as the official communication channel between students and the university's governing body.

CEUCA works to:

- Defend students' rights and interests.
- Ensure transparency and fairness in academic life.
- Improve well-being, inclusion, and participation in university decisions.
- Support local Student Unions, which are the main student representatives in each faculty.

Where is CEUCA?

CEUCA represents students in:

- University governance (Rectorate, Faculty Boards, University Senate, etc.).
- Committees and commissions where decisions about teaching, services, and student life are made.
- National and international student platforms, strengthening collaboration with other universities.

Important note:

Even though international students from Erasmus or mobility programs cannot be official student representatives, they can always rely on CEUCA for support. Our work complements your Faculty's Student Union and helps ensure that your concerns are heard at the highest level.
